## BEN. FRANKLIN

Who used to run a newspaper down east years ago, also edited an almanac which contained some wise sayings. Here is one of them: "The way to wealth if you desire it, is as plain as the way to market. It depends chiefly on two words—industry and frugality. He that gets all he can honestly and saves all he gets (necessary expenses excepted) will certainly become rich." What Ben said was not only true at that time but it still holds good at the present day. There is no better way to save than to have a bank account—you are not tempted to spend it. We will be glad to have you start an account at this bank.

## ST. ROSE'S CHURCH

A most pleasing change is noticed in the church of St. Rose Artists from Detroit, six in number, have been at work for nearly three weeks, renovating the entire interior of the large stone building. This was a very slow and exceedingly dangerous work, but it was all accomplished without any serious mishap.

Besides being renovated the church has also been wired for electric lights. The wiring was done by a home expert, Ed. Witzler. Father Kleekamp has an undivided confidence in home talent, and felt as though he could not intrust the important work to strangers.

There are 32 lamps for the main and auditorium and four lamps for the choir. The style of lamp used is not the ordinary incandescent light, but is what is known as the Tungsten lamp, which is the latest and best electrical

lamp on the market. Every one is a 100 watt lamp. With this lamp is used the holophone shade, made in New York. The effect of these lamps is marvelous, and most pleasing to the eye. It converts darkness into daylight. In due time, all the alters will also be decorated with electrical lamps. A switch board, built of white marble and steel, by the F. Bissell Company of Toledo, and standing in one of the sacristies controls every light in church.

The church was lit up for the first time Sunday evening, Nov. 15. People of all denominations from Perrysburg and also Toledo, filled the large building to see the electrical display. Everyone seemed to be pleased. A great deal of credit is due to Mr. Witzler for making this lighting system such a grand success. Any man, who can successfully wire a building like St. Rose's church, is capable of wiring successfully any building. However the work of improvement would not be complete without the aid of the ladies of the parish. In a few hours time they raised a fund of \$200. and with it they bought a beautiful carpet for the sanctuary. All these improvements were done in time for the Forty Hours Devotion, which began last Sunday morning at 10 o'clock. They were conducted by Rev. Fr. Paulus of St. Louis Mo., Father Klekamp was assisted at these devotions by the Revs. Father C. V. Cheyroux, John Harks, G. H. Rieken, S. Hilleg, S. J.; John P. McCloskey and F. Houck all of Toledo. Thomas Redding of Maumee and Joseph B. Weis, of Paulding, Ohio. The Forty Hours closed last Tuesday evening.

But the march of improvement is still going on at St. Rose's. Last week under the auspices of the C. M. B. A. society, a contract was let to a Chicago firm, for the placing of a white marble statue in a niche in front of the church. The statue will be of heroic size, seven feet and four inches high. It will be built of Carara marble, and made in Italy. It will weigh 2000 pounds, and is to be finished by July 25, 1909. The statue will represent St. Rose, the patron saint of the church, and cost complete about \$500. Please take notice that the members of St. Rose's church are hustlers, they believe that nothing is too good or too costly for Almighty God.
